## Verrado chief to head up DMB's Mesa Proving Grounds project

The Business Journal of Phoenix - 10:47 AM MST Thursday, August 9, 2007

A member of DMB Associates who spearheaded the Verrado project in Buckeye has been named general manager for the Scottsdale company's Mesa Proving Grounds.

Vice President John Bradley will oversee plans for the 3,200-acre site at Elliot and Ellsworth roads purchased from General Motors in 2006.

"The Mesa Proving Grounds property represents a significant building block in advancing economic development plans for Mesa, the Williams Gateway area, the Williams Gateway Airport and the East Valley region," Bradley said. "I look forward to working with community leaders and residents to create a vision for the property that not only preserves its history and traditions, but also protects and secures Mesa's economic future."

Bradley is a member of the Urban Land Institute District Council-Arizona Steering Committee, Westmarc Board of Directors, Arizona State University College of Teacher Education and Leadership Advisory Board and the Banner Health West Valley Philanthropic Development Council.
